ibash commented 7 days ago • edited ▾

- Electron version: Electron built at `aea06ed`, also reproduced on 1.8.2-beta.4
- Operating system: macOS 10.13.2

How to reproduce

1. Clone this repo: <https://github.com/ibash/crashed-crash>
2. `yarn install`
3. `yarn start`

Crash example [here](#)

Expected behavior

background web contents is continually crashed and recreated.

Actual behavior

Main process eventually crashes - see link above.

Branch protection for master

Protect this branch

Disables force-pushes to this branch and prevents it from being deleted.

Require pull request reviews before merging

When enabled, all commits must be made to a non-protected branch and submitted via a pull request with at least one approved review and no changes requested before it can be merged into **master**.

Dismiss stale pull request approvals when new commits are pushed

New reviewable commits pushed to a branch will dismiss pull request review approvals.

Require review from Code Owners

Require an approved review in pull requests including files with a designated code owner.

Restrict who can dismiss pull request reviews

Specify people or teams allowed to dismiss pull request reviews.

Require status checks to pass before merging

Choose which [status checks](#) must pass before branches can be merged into **master**. When enabled, commits must first be pushed to another branch, then merged or pushed directly to **master** after status checks have passed.

Restrict who can push to this branch

Specify people or teams allowed to push to this branch. Required status checks will still prevent these people from merging if the checks fail.

Mistaken Pull Closer

accesslint bot suggested changes on Dec 23, 2017

[View changes](#)

There are accessibility issues in these changes.

views/partials/footer.html

```
16      -      <a class="footer-nav-item icon" href="https://github.com/electron"
17      -      <a class="footer-nav-item icon" href="https://twitter.com/electron"
16      +      <a class="footer-nav-item" href="https://github.com/electron" aria-
17      +          <svg class="footer-social-icon icon-github" role="img" xmlns="ht
```

accesslint bot on Dec 23, 2017

You're missing an `alt` attribute here. This is a problem for people using screen readers. Here are some [tips for what to write](#).

Update graphql to the latest version 🚀 #1080

 **Open**

greenkeeper wants to merge 1 commit into `master` from `greenkeeper/graphql-0.13.0`

release-notifier bot commented 21 minutes ago

This PR landed in [v3.0.2: lil' patchy patch](#)

PROBOT

GitHub Apps to automate
and improve your workflow

Use pre-built apps to extend GitHub,
and easily build and share your own.

Semantic Release

```
$ npm i -g semantic-release-cli  
$ cd my/project  
$ semantic-release-cli setup
```

feat: add translations

New Crowdin translations

Confirm merge

Cancel

In the works...

SemVer is coming.

- electron@1.8.2 - Chromium 59, Node 8
- electron@2.0.0 - Chromium 62, Node 9
- electron@3.0.0 - Chromium 63 (Probably)

Localized documentation

- [crowdin.com](#) ftw
- 500+ translators
- 23 languages
- Node.js project to follow our model

Languages

Localized content from our awesome global developer community.

Electron App Registry

- Only 500 apps on the site today
- 28,000 public GitHub repos depend on Electron
- Feature apps by different criteria (newness, popularity, contributor count)

Other stuff in the works

- Zero-to-Hero tutorial documentation
- Easier app autoUpdates with CDN-friendly Squirrel
- Semantic Releases of Electron

Thanks!

Slides created with Marp and Figma.

```
$ npm i -g electron-forge
```

```
$ electron-forge install yhatt/marp
